Greg,

Sharon Newman will not be able to join today, but Dan Feuer and Nathan Wiser will be joining us from headquarters instead.

Thanks,  
Molly

I'm good with that time. We can wait until we hear back from Molly and David. We may have another team member to take part as may David.

NETL is running a big 4 day webinar on all of the projects as we speak.

Thanks Bruce, I really appreciate your time in helping us set this up. We use Teams, so that works and I can send out an invite.

How is 2pm EST on Friday (9/11)?

If Friday doesn't work, next week we are available Mon (9/14), Wed (9/16), Thurs (9/17) and Friday (9/18) any time. Greg

**Subject:** RE: San Joaquin Valley geologic sequestration project

Hi Greg- Hope that you are enjoying a safe Labor Day weekend!

I communicated with David Albright, who is the UIC Manager in Region 9, and we would be happy to listen to your project in CA and discuss the permitting process.

We at HQ will focus on listening in and supporting Regional decisions and in order to get this first meeting on our schedule, we will defer to David's time. We at HQ are participating with DOE-NETL on their carbon capture conference for parts of this week and David mentioned he is available both Wednesday and Friday (except 10-11:30 PDT). So to keep us from missing out on the NETL meeting why don't we shoot for a time on Friday? Technically I'm off most of the week, but I would be happy to sit in as long as Molly McEvoy can make the time we decide on Friday. If you can offer a time we'll make every effort to accept it and set up a meeting or call. If you would like to do a virtual meeting in Teams let us know if you use that platform or we can try Skype as well.

Thanks again and hope to talk real soon. Bruce

**Subject:** San Joaquin Valley geologic sequestration project

Bruce, hope you're doing well!

As we spoke about in March I am currently working with a company, San Joaquin Renewables (SJR), that intends to develop a geologic sequestration project in the San Joaquin valley, California. We are hoping that you, David and Molly (or whomever would be most appropriate staff from HQ and R9) would be receptive to an informal virtual meeting with myself and representatives of SJR to discuss the project and Class VI permitting process. If so, do you mind sending me your availability for the weeks of August 31, September 7, and September 14?

Best, Greg
